WATER AND ENERGY FOR FOOD: A GRAND CHALLENGE FOR DEVELOPMENT

Call for Expression of Interest (EOI) From Service Providers Southern and Central Africa

EOI-WE4F S/C Africa-2021-001

Contact: WE4FAfricaRIH@tetratech.com
Subject: EOIs from Service Providers

- Become part of a qualified pool of service providers for the Water and Energy for Food (WE4F) Southern and Central Africa Regional Innovation Hub
- Work with private enterprises and non-profits across Southern and Central Africa delivering innovative solutions sustainably transforming the agriculture food supply chain in the Southern and Central Africa region.

### About Water and Energy for Food (WE4F): A Grand Challenge for Development

The Water and Energy for Food (WE4F): A Grand Challenge for Development is a joint international initiative of the German Federal Ministry for Economic Cooperation and Development (BMZ), the European Union (EU), the Ministry of Foreign Affairs of the Netherlands, Sweden through the Swedish International Development Cooperation Agency (Sida) and the U.S. Agency for International Development (USAID).

WE4F is designed to address barriers to producing more food with efficient and sustainable usage of water and energy along the value chain from farming to the end-user to impact food security, gender, and poverty reduction in an environmentally sustainable way.

Together with partners and investors, the Southern and Central Africa Regional Innovation Hub (S/C Africa RIH) supports mid to late-stage enterprises to scale innovations that positively impact food security in an environmentally sustainable way. This is through grants, technical assistance (TA) and investment facilitation supports.
Supported innovations use less water and more sustainable energy to produce more food, protect biodiversity and mitigate the effects of climate change while providing opportunities to women, youth, and the poor. Tetra Tech implements the S/C Africa RIH in association with Open Capital Advisors (OCA) and the International Water Management Institute (IWMI).

With this document, the S/C Africa RIH invites eligible service providers to respond to WE4F’s Call for Expressions of Interest (EOI) to become part of the pool of pre-vetted service providers to deliver technical assistance. As TA needs are identified, requests for proposals (RFPs) and requests for quotation (RFQs) will be issued to pre-vetted service providers in their respective TA category area. All subcontracts resulting from limited competition among pre-vetted service providers will be issued by Tetra Tech.

**The Objective of the EOI**

EOIs submitted by applicants are to help the WE4F S/C Africa RIH identify registered companies interested in being included in a pool of pre-vetted service providers and provide services to the innovators supported by WE4F between 2021 to 2025. Being selected to participate in the pre-vetted pool of service providers does not guarantee any award from the WE4F S/C Africa RIH. Instead, it provides an opportunity to bid on RFPs and/or RFQs with specific scopes of work to provide TA to innovators.

**Why Be Part of Water and Energy for Food?**

The Southern and Central Africa region is subject to many challenges, including intensive energy and water uses that exacerbate climate change, depletion of natural resources and biodiversity loss, poverty, and inequality.

Tackling issues in the water-energy-food nexus is imperative to achieve political and social stability, gender equality and inclusion, food security, and sustainable development.

Despite the challenges the region faces, at the same time, it presents an emerging opportunity for local innovators to find solutions for the most pressing water and energy issues in food production and agriculture while countering the effects of climate change and protecting biodiversity.
These innovators, however, often have insufficient entrepreneurial capacities to scale up developed prototypes successfully and sustainably, access catalytic investment, integrate gender into their operations, or engage with policy and regulation environments. They require specific support services to unlock such opportunities to scale their solutions, prepare them to accelerate their growth and achieve good Environmental, Social and Governance (ESG) impact.

Therefore, WE4F S/C Africa RIH will provide direct support to the 30 innovators (Tier 1 support) and work with pre-vetted service providers to assist in delivering such services (Tier 2 support). This is part of a comprehensive support suite to help accelerate the growth of innovators.

The Call for EOI’s is launched to build a pool of qualified service providers to deliver various services to the innovators supported by WE4F S/C Africa RIH.

**Target Innovators of the WE4F Grand Challenge**

WE4F works with entrepreneurship and innovation through the following actors:

- For-profit and non-profit organizations and organizations in academia with a for-profit arm working on scalable sustainable innovations at the nexus of water-energy-food. These organizations can apply through the Calls for Innovations.
- Actors that are identified by the Regional Innovation Hub and fit the criteria of WE4F and are crucial for the scaling of impacts.
- Innovators with a large potential for sustainable scaling that have previously received support and proved successful in the introduction phase from either Securing Water for Food or Powering Agriculture Grand Challenges (WE4F’s preceding programs).

Innovations supported by WE4F include, but are NOT limited to, the themes mentioned below:

- Theme 1: Innovations in food production to reduce water usage
- Theme 2: Efficient use of water resources for food production
- Theme 3: Sustainable use of energy and water on farm
- Theme 4: Energy innovations for food processing and/or logistics
- Theme 5: Food production with efficient energy use
- Theme 6: Leveraging food/agriculture waste for energy
Who Should Apply to Join the Pre-vetted Pool of Service Providers?

The first call for service providers will only target the following twelve countries of the S/C Africa RIH’s operating countries. The targeted countries for this Call for EOI are listed, alphabetically, in Table 1 and determined based on (i) current location of legacy innovators and their operations and (ii) tentative location of the expected grantees and their operations chosen through first call for innovations and (iii) where the S/C Africa RIH has staff with local expertise located.

Table 1: Tier 2 TA focus countries

<table>
<thead>
<tr>
<th>Countries of focus for Tier 2 TAs</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Angola</td>
<td>Lesotho</td>
</tr>
<tr>
<td>Botswana</td>
<td>Mozambique</td>
</tr>
<tr>
<td>Chad</td>
<td>Namibia</td>
</tr>
<tr>
<td>Central Africa Republic</td>
<td>South Africa</td>
</tr>
<tr>
<td>Democratic Republic of Congo</td>
<td>Zambia</td>
</tr>
<tr>
<td>Eswatini</td>
<td>Zimbabwe</td>
</tr>
</tbody>
</table>

Table 2 below presents all focused TA contents that the pre-vetted service providers are expected to provide. However, all service providers who specialize in each TA category are welcome to apply and be pre-vetted.

To be qualified, it is important to note the companies must be operating in at least one of the S/C Africa RIH’s 12 target countries: Angola, Botswana, Chad, Central Africa Republic, Democratic Republic of Congo, Eswatini, Lesotho, Mozambique, Namibia, South Africa, Zambia and Zimbabwe.

EOI Process and Timeline

To submit questions: Prospective service providers who have questions concerning the contents of this Call for EOI can submit them in writing no later than November 25, 2021 at 4:00 PM CAT to WE4FAfricaBids@tetratech.com. Only questions submitted to this email address will be considered.

To attend the webinar: Prospective service providers who are interested to join the informational webinar, and discussion on questions and answers (Q&As) on November 30, 2021 at 4:00 – 3:00 PM CAT can register their interested at: WE4FAfricaBids@tetratech.com.

The Webinar will be advertised on Eventbrite and and will be broadcast via Microsoft Teams.

Submission deadline: EOIs must be submitted no later than December 14, 2021 at 4:00 PM CAT. Prospective Service Providers are requested to complete the EOI questionnaire and upload all required documents via this SurveyMonkey form.

Required Documents

EOI Questionnaire
The following is a list of questions to be completed in the online portal by each service provider.

1. Company Overview
   1.1. Complete registered name of company
   1.2. Type of business
   1.3. Overview of your company and legal structure
   1.4. Summary of your services
   1.5. Country of registration
   1.6. Country(ies) of operation in Southern and Central Africa
   1.7. Year of establishment
   1.8. Number of relevant technical experts (full time in the organization, and short-term experts)
   1.9. Number of management-level employees
   1.10. Number of women in management-level positions
   1.11. Address of company
1.12. Website

2. Authorized Point of Contact
   2.1. First name
   2.2. Last name
   2.3. Title
   2.4. Position
   2.5. Email
   2.6. Phone Number

3. Technical Expertise and Past Performance
   3.1. Please select up to 3 areas of expertise from the service categories (Table 2)
   3.2. Please upload 3 of the three-slide summaries of your previous projects per each area of your expertise (Projects related to WE4F nexus in the past three years are strongly preferred).
   3.3. Please upload 3 CVs of your experts per each area of your expertise.

4. Others
   4.1. Please upload relevant certifications:
       • Representation and Certifications (Organization Conflict of Interest Certificate)
       • Certification that company is not owned or controlled in total or in part by any entity of any government
   4.2. Please upload other supporting documents:
       • Proof of incorporation
       • Proof of registration (Copy of Business License)
       • SAMS number
       • DUNs number

Evaluation Criteria

EOIs will be scored on a 100-point scale. Available points for each evaluation factor are given below in Table 3. EOI s must address each evaluation factor.

Table 3: Vendor’s pre-qualification criteria

<table>
<thead>
<tr>
<th>Pre-qualification Criteria</th>
